R82 Quokka

A unique way to transport children in a spica cast

R82 Quokka

The Quokka is a highly functional convertible (rear and forward facing) child restraint system to meet a range of postural requirements with an ergonomic design to accommodate a child up to 41" that weighs from 5 – 39.6 lbs.

The Quokka can be used in rear facing for a child that weighs 5 – 39.6 lbs. The forward facing orientation can be used for a child that weighs 22 – 39.6 lbs.

The Quokka is a car seat that offers patients both comfort and maximum safety. The Quokka's exceptional Spica positioning wedge ensures a casted user is fully supported during transit, kept both upright and stable. The sides of the seat are specially formed to fit legs that are casted or in a brace, while the head and neck are held both secure and comfortable with the adjustable plush head support and multi positional padded 5-point safety harness. The LATCH System comes standard with each Quokka making each car ride a safe fun adventure for the entire family.

Features

Standard Accessories

Spica Positioning wedge
The unique Spica Positioning Wedge provides a casted user the ability to obtain an adequately supported fit during transit.

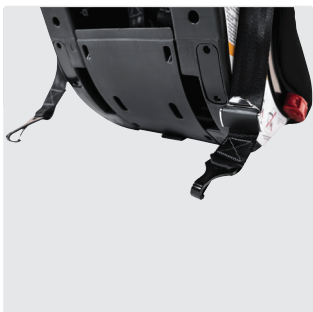

5-Point Positioning Safety Harness
It's easily adjustable in height and length to fit your child as your child grows.

Harness Padded Covers
The padded harness strap provides the child with additional comfort and support.

Head Support
Provides the child's neck and head with support for safety and comfort.

Lower Anchor Straps
The Lower straps with hooks attach to the vehicle lower anchors.

Top Tether Strap
The tether strap has a hook on the end that connects to the tether anchor in the vehicle.
