POSITIONING YOU FOR LIFE

### A MESSAGE FROM RICH GOLDEN, CEO

*Golden is known for comfort, quality and innovation. Since 1985, we have produced power lift recliners that push the boundaries of expectation, providing seating options with unique body positions.*

*In 2018, we launched the MaxiComfort® Cloud with Twilight Technology, a luxury power recliner capable of providing never before seen or felt levels of comfort, thanks to our patented three Comfort Zone positioning system. In 2019, we launched the next generation of patented Twilight Technology offering five Comfort Zones. It offers you a new range of rejuvenating positions to comfort the body and ease the spirit.*

*Our chairs are handcrafted with the highest quality components available, engineered to give you maximum service with minimum maintenance, and backed not only with a lifetime warranty on our lift frame and scissor mechanism, but our wooden frame as well. We hope your Golden chair provides years of comfort and enjoyment while sitting down and relaxing as well as standing up when lift assist is needed most.*

*We are proud to manufacture America's favorite power lift recliners - for your family, and ours.*

## OUR VISION...

*To build the most innovative and comfortable products that put you and your family's lives in motion.*

## Features That Make Golden Power Lift Recliners America's #1 Brand!

Golden Technologies is the world's leading manufacturer of power lift recliners. Founded in 1985, Golden has become America's most trusted and reliable brand with the most innovative products and features. All chairs are handcrafted by American workers with domestic and imported materials (with the exception of the DeLuna Series). Each chair undergoes a 42+ point quality control inspection before the product is approved for shipping.

**Golden lift chairs are Class II Medical Devices.**

# We Patented Comfort™

Golden holds multiple patents on our technology, allowing us to offer an EXCLUSIVE comfort experience.

## PATENTED Twilight Technology

The patented Twilight Technology includes an extra adjustable zone that provides a tilting motion, cradling your body and offering more positioning than any other recliner on the market.

## PATENTED MaxiComfort® Positioning

Our patented MaxiComfort® Positioning provides ergonomic support thanks to the four-way motion of the seat combined with the independent movement of the back. This unique movement provides extra support to your lower back and can provide relief to muscle and joint pain.

## PATENTED SmartTek® Diagnostic System

SmartTek® is a patented technology standard on all Golden lift recliners. SmartTek uses three LED lights to help diagnose the electrical health of the chair.

# We Give It To You Straight

Golden Offers A Straight Lift Option Not Found On Most Other Power Lift Recliners!

The straight lift option allows the entire chair to lift straight up instead of lifting and tilting forward when getting out of the chair. Lift chairs almost always require the user to be able to stand up to transfer into them or leave them by standing. The straight lift feature is designed to allow for other safe transfer options with the aid of a caregiver when gentle lift assistance is needed to enjoy the comfort of a reclining chair. It can also be used to raise the seat height when sitting if someone needs another comfort position.

*Available on all models except chairs with Twilight Technology.*

*noun* | a place or situation where one feels safe or at ease without stress

## Comfort Zone™ by GOLDEN

The Comfort Zone by Golden offers a stress-free reclining experience by providing patented, adjustable and supportive positioning zones that can increase your body's wellness and optimize the feeling of comfort.

### Zone 1

#### LOWER BODY

The four-way motion of the seat helps provide relief to muscle and joint pain by placing your lower body in a supported ergonomic position.

### Zone 2

#### UPPER BODY

The independent movement of the backrest, combined with the four-way motion seat box in Zone 1, creates our patented positioning that allows stress and strain to be released from your upper body by offering adjustable support for your back and shoulders.

### Zone 3

#### HEADREST

The upward motion of the adjustable headrest allows for tension to be released from your neck and shoulders by supporting your head placement, while encouraging the natural shape of your spine.

### Zone 4

#### LUMBAR

The custom and firm support of the adjustable lumbar can take pressure off your spine while giving your back muscles the chance to rest and rejuvenate.

### Zone 5

#### TWILIGHT TILT

The tilting motion of our patented Twilight Technology provides a feeling of weightlessness and offers even more positioning options not available with other recliners. Encourage circulation by relaxing with your legs elevated or promote the release of muscle tension and joint pain in a comforting neutral position.

WE PATENTED COMFORT®

## FIVE-ZONE SYSTEM

**Comfort Zones 1 - 5** This positioning system includes all five adjustable comfort zones to create the ultimate wellness comfort experience with our patented Twilight Technology. Each Comfort Zone can be adjusted independently by using the exclusive AutoDrive™ hand control.

## FOUR-ZONE SYSTEM

**Comfort Zones 1 - 4** provide an ergonomic comfort experience with an emphasis on head and back support. Each Comfort Zone can be adjusted independently by using the exclusive AutoDrive™ hand control.

## TWO-ZONE SYSTEM

**Comfort Zones 1 & 2** work together to create individualized wellness positioning and comfort with our patented four-way motion seat box and independent backrest. Each Comfort Zone can be adjusted independently by using the exclusive AutoDrive™ hand control.

## ONE-ZONE SYSTEM

**Comfort Zone 1** provides ergonomic placement of your lower body allowing your muscles to relax for long-lasting comfort. Comfort Zone 1 can be adjusted using the two buttons on the hand control.

# GOLDEN AutoDrive™ 3.0

## CUSTOMIZED COMFORT

Designed with the consumer in mind, every feature of the AutoDrive™ hand control has been purposefully added to ensure personalized comfort and optimal wellness positioning options, available through easy-to-use features, making operating your recliner a breeze.

**Easy-Grip Design** – A tapered design with a finger grip indentation on the back and “soft touch” finish helps keep the controller firmly in place in anyone’s grasp.

**Button Programmability** – Four programmable buttons help the user find their perfect position again and again without hassle.

**SmartTek® Diagnostic System** – The electrical health of the chair is communicated using LED lit buttons, allowing the user to know immediately if power to the chair has been lost.

**Quick Disconnect** – This feature allows for the hand control to be easily replaced, if needed.

*In addition to the physical features, all AutoDrive™ hand controls offer the following functional features:*

- **Full Lockout** – Disables all the buttons on the hand control
- **Partial Lockout** – Disables all buttons except “Rise” and “Recline”
- **Lights Out** – Turns off the light that illuminates the buttons
- **Factory Default Reset** – Resets the Position Control buttons back to the original factory settings
- **Calibration** – Fine-tunes your positioning and keeps your recliner movements accurate

*(See Owner’s Manual for more details.)*

**AVAILABLE IN THE THREE VERSIONS, THIS UNIQUE HAND CONTROL OPERATES OUR 2, 4 & 5-ZONE POSITIONING SYSTEMS, ALLOWING FOR BASIC, CUSTOM OR POSITION CONTROL OPTIONS.**

AUTODRIVE

Scan with your smartphone camera to learn more!

**BASIC CONTROL** – The top two buttons take you to the basic lift and recline functions of the chair while still allowing you to experience our PATENTED MaxiComfort® positioning.

**POSITION CONTROL** – The labeled buttons in the middle are preset, but can also be programmed to your personalized positions, offering a customized reclining experience every time.

**ZG** – Zero Gravity offers a supportive feeling of weightlessness.

**Sit** – Provides an easy and stress-free way to return your chair to the proper seated position.

**TV** – Takes you to the perfect position to relax while watching TV or reading a book.

**Rejuv** – Allows you to elevate your feet and legs comfortably for a long period of time. *(Position only available on 5-Zone recliners).*

**Sleep** – Takes your body to a traditional lay flat position, which can be comfortable for napping during the day or sleeping at night. *(Button only available on 2 and 4-Zone recliners).*

**CUSTOM CONTROL** – The arrow buttons toward the bottom of the hand control allow you to adjust each zone independently which is the best way to truly find your perfect position to program.

"I have three Golden chairs that are 8, 4, and 1 year old and cannot say enough about their products. I have had absolutely no issues and would recommend the Golden chairs to everyone. By the way, I sleep in my chair!"

# GOLDEN OFFERS THE HIGHEST QUALITY RECLINER FABRICS

When it comes to performance, comfort, and style, Golden Technologies' array of power lift recliners is unmatched in the industry. It's no wonder that the fabric we use gives you the same high quality and range of choices to please every taste and need – including our exclusive luxury Brisa® and high-performance fabric with Alta™ technology, plus a full palette of plush fabrics and colors. At Golden, we understand how important your lift chair is to you, and we want you to relish in its appearance and durability, as well as its functionality.

## THE BRISA® COLLECTION

Cream Buckskin Saddle Bridle Coffee Bean Shiitake Iron Black Onyx Beet Root Night Navy

Supple Brisa® fabric offers the refined look of leather, but in a luxuriously soft, breathable, and temperate design. Brisa fabric comes in an extensive selection of lovely colors to choose from and will never stick to you or feel too hot or cold. This beautiful fabric is scratch resistant and easy to clean and disinfect, so it always stays looking new! These fabrics are double rubbed 300,000 times to ensure the highest level of quality and durability. We're so sure of the quality of this fabric, that Golden offers a Limited Lifetime Warranty\* on all Brisa fabrics.

*\* Limited Lifetime Warranty, as long as normal use is maintained. Restrictions apply.*

## NEW HIGH-PERFORMANCE FABRIC with Alta™ Technology

Our high-performance fabric with Alta™ technology is perfect for heavy-duty or high-traffic seating. Alta ramps up performance with a total liquid barrier, antimicrobial protection, and high repellency to liquids and oil-based stains. Exceptional cleanability reduces the need for harsh cleaning agents. Durablock™ liquid barrier provides breathable protection. Golden offers a 10-year warranty on all high-performance fabric with Alta technology.
